

Erik Jan

Front-end developer

Professional Summary

Highly skilled Front-end Developer with over 5 years of experience crafting dynamic, responsive, and user-centric web applications. Proficient in modern JavaScript frameworks like React, dedicated to writing clean, maintainable code, and passionate about creating exceptional user experiences. Eager to leverage expertise in challenging projects that demand innovation and technical excellence.

Work Experience

Senior Front-end Developer

March 2021 - Present

Global Tech Solutions, Utrecht, NL

- Led the development and optimization of scalable front-end architectures using React and TypeScript.
- Collaborated with cross-functional teams to define, design, and ship new features, ensuring high performance and responsiveness.
- Mentored junior developers and conducted code reviews to maintain code quality and foster best practices.

Front-end Developer

June 2018 - February 2021

Innovate Digital Agency, Rotterdam, NL

- Developed and maintained highly interactive user interfaces for various client projects using HTML, CSS, and JavaScript (ES6+).
- Implemented RESTful API integrations and managed application state with Redux.
- Optimized web applications for maximum speed and scalability, enhancing user experience across devices.

Junior Web Developer

September 2016 - May 2018

Creative Bytes Studio, The Hague, NL

- Assisted in the design and development of website layouts and user-facing features.
- Wrote clean, semantic, and accessible HTML and CSS code.
- Participated in agile development sprints, contributing to daily stand-ups and sprint reviews.
