

Bas Koopmans

Fullstack developer

Professional Summary

Experienced Fullstack Developer with 6+ years of expertise in designing, developing, and deploying robust web applications. Proficient in both frontend and backend technologies, with a strong focus on creating scalable and user-centric solutions. Passionate about leveraging cutting-edge tools to solve complex business challenges and drive innovation across various industries.

Work Experience

Senior Fullstack Engineer

January 2021 - Present

Innovate Solutions, Amsterdam, North Holland

- Led the development of new features and enhancements for a flagship SaaS platform using React, Node.js, and AWS.
- Mentored a team of junior and mid-level developers, fostering best practices in code quality and system design.
- Architected and implemented scalable RESTful APIs, improving data processing efficiency by 25%.
- Collaborated cross-functionally with product management and UI/UX teams to translate requirements into technical specifications.

Fullstack Developer

March 2018 - December 2020

Digital Horizon, Utrecht, Utrecht

- Developed and maintained web applications with Python (Django) on the backend and Angular on the frontend.
- Implemented database schema designs and managed PostgreSQL instances, ensuring data integrity and performance.
- Integrated various third-party services and APIs to enhance application functionality.
- Participated in agile ceremonies, contributing to sprint planning, daily stand-ups, and retrospectives.

Junior Web Developer

September 2016 - February 2018

CodeCraft Inc., Rotterdam, South Holland

- Assisted in the development of client-side web applications using JavaScript, HTML5, and CSS3.
- Contributed to backend development tasks using PHP and MySQL, focusing on minor bug fixes and feature additions.
- Conducted unit and integration testing to ensure the quality and reliability of web applications.
- Collaborated closely with senior developers to learn and apply best coding practices and development methodologies.
