

# Angel Dever

## Android Developer

### Professional Summary

Highly motivated Android Developer with 5+ years of experience designing, developing, and deploying robust mobile applications. Proficient in Kotlin and Java, with a strong understanding of Android SDK, UI/UX principles, and RESTful APIs. Passionate about creating seamless user experiences and contributing to innovative mobile solutions.

### Work Experience

#### Senior Android Developer

January 2021 - Present

Nexus Mobile Solutions, Austin, TX

- Led the development and maintenance of core features for a high-traffic e-commerce Android application, serving over 1M users.
- Collaborated with product managers and UI/UX designers to translate requirements into technical specifications and innovative mobile solutions.
- Implemented robust testing strategies, including unit and integration tests, ensuring code quality and application stability.
- Mentored junior developers and conducted code reviews to foster best practices and improve team productivity.

#### Android Developer

July 2018 - December 2020

Pixel Innovations, Dallas, TX

- Developed and optimized features for various Android applications using Kotlin and Java, focusing on performance and user experience.
- Integrated third-party SDKs and APIs for functionalities like payment processing, analytics, and social media sharing.
- Participated in the full application lifecycle, from conception and design to testing, deployment, and post-launch support.
- Debugged and resolved critical issues, contributing to a significant reduction in crash rates.

#### Junior Mobile Developer (Internship)

May 2017 - August 2017

TechSpark Ventures, Houston, TX

- Assisted senior developers in building and testing Android application components.
- Wrote documentation for new features and contributed to UI layout design.
- Gained hands-on experience with Android Studio and version control systems.
