

Thomas

Front-end developer

Professional Summary

Highly skilled and innovative Front-end Developer with over 7 years of experience crafting dynamic, user-friendly web applications. Proficient in modern JavaScript frameworks and libraries, dedicated to building intuitive interfaces and delivering exceptional user experiences. Eager to leverage expertise in responsive design and performance optimization to contribute to cutting-edge projects.

Work Experience

Senior Front-end Engineer

January 2020 - Present

Innovatech Solutions, Austin, TX

- Led the development of a scalable e-commerce platform using React, Redux, and GraphQL, improving page load times by 25%.
- Collaborated with UX/UI designers to translate wireframes and mockups into pixel-perfect, responsive web interfaces.
- Implemented comprehensive unit and integration tests using Jest and React Testing Library, increasing code coverage by 30%.
- Mentored junior developers and conducted code reviews to ensure best practices and high-quality code standards.

Front-end Developer

August 2017 - December 2019

NexGen Web Studio, Dallas, TX

- Developed and maintained client-facing web applications using Vue.js and Nuxt.js, integrating with RESTful APIs.
- Optimized application performance and ensured cross-browser compatibility across all projects.
- Participated in agile development cycles, contributing to sprint planning and daily stand-ups.
- Collaborated with back-end teams to define API contracts and troubleshoot integration issues.

Junior Web Developer

June 2015 - July 2017

Digital Horizon Agency, Houston, TX

- Assisted in the development of corporate websites and landing pages using HTML5, CSS3, and JavaScript.
- Provided support for content management systems, primarily WordPress, for various clients.
- Implemented responsive design principles to ensure optimal viewing experiences across devices.
- Conducted routine website maintenance and bug fixes.
