# Elise Strormezand

Fullstack developer

Professional Summary

Highly motivated and results-oriented Fullstack Developer with 5+ years of experience building and deploying robust web applications. Proficient in both front-end and back-end technologies, with a strong focus on creating scalable and user-centric solutions. Eager to leverage strong problem-solving skills and collaborative spirit to contribute to innovative projects.

Work Experience

Senior Fullstack Engineer
July 2021 - Present

Innovatech Solutions, Seattle, WA

- Led the development of a new microservices-based e-commerce platform using React, Node.js, and AWS Lambda, resulting in a 30% improvement in load times.
- Designed and implemented RESTful APIs, ensuring seamless integration between front-end and back-end components.
- Mentored junior developers and conducted code reviews to maintain high code quality and best practices.
- Optimized database queries and introduced caching mechanisms, reducing server response times by 25%.

Fullstack Developer
August 2018 - June 2021

WebFlow Dynamics, Portland, OR

- Developed and maintained full-stack web applications using Angular, Express.js, and MongoDB.
- Collaborated with UX/UI designers to translate wireframes and mockups into responsive and interactive user interfaces.
- Implemented unit and integration tests to ensure application stability and reliability.
- Participated in agile development cycles, including sprint planning, daily stand-ups, and retrospectives.

Junior Web Developer
May 2017 - July 2018

ByteCraft Studio, Portland, OR

- Assisted in the development of front-end features using HTML, CSS, and JavaScript.
- Performed bug fixes and conducted basic testing across various web projects.
- Contributed to documentation and participated in team learning sessions on new technologies.
